

Energy-saving insulation!

ECO+Sleeve

Steam-cylinder insulation for Condair RS and MK5

In order to reduce the heat-emission of the steam cylinder to a minimum, we now offer you the new ECO+ steam cylinder sleeve as an additional and very effective insulation.

By means of using the ECO+ steam cylinder sleeve, your customer can save up to 80% of the heat emission of the cylinder.

The velcro fastener allows a very simple and quick installation. In addition, the ECO+ sleeve provides a very efficient touch protection.
